15th December 2023

Dear Parents/Carers,

Next term, Year Five will be studying rivers in geography. We have managed to secure spaces on the Parks Trust river exploration course for all of the children in our year group. This will take place in the Tattenhoe Valley park over the 24th and 26th January. Each class will have a morning or afternoon being guided through river exploration (without getting wet!). This will include measuring the flow of water.

In order to facilitate this wonderful experience, we are asking for a contribution of £4 per child. This includes expert river help and equipment that will be used during the trip. Please can all payments be made by 10.01.23, no child will be excluded from this event for inability to pay, however, in the event that there are not enough contributions to cover the visit, we will have to cancel this event. If you are able or wish to contribute more than the requested amount, then you are welcome to do so.

Kind Regards,

Year Five Team
