Chair of Governing Board: Mrs Rebecca Cosgrove

Dear Parents/Carers,

Over the course of each academic year, we are making it our aim that all children within the school will have at least one educational visit off site and/or a visitor into school, alongside local area visits and enrichment days. We really value the importance of these experiences and recognise how they can enhance the children's learning opportunities.

This half term's enrichment activity is out of this world. On the 23rd October, we have managed to secure a planetarium for the school hall. This immersive experience will quite literally whisk the children through space viewing the different stars and planets in our solar system.

The cost per pupil for this is £7.00. This covers the cost of the dome and any set up costs that the company needs. This is the price per pupil, if you are able to or would like to donate more we would greatly appreciate it. This can be paid via your parentmail account.

Kind Regards,

Year 5 Team
